A BILL

To change the name of the National Institute on Drug Abuse to the National Institute on Diseases of Addiction and to change the name of the National Institute on Alcohol Abuse and Alcoholism to the National Institute on Alcohol Disorders and Health.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Recognizing Addiction
3 as a Disease Act of 2007”.

4 **SEC. 2. FINDINGS.**

5 Congress makes the following findings:

6 (1) Addiction is a chronic, relapsing brain dis-
7 ease that is characterized by compulsive drug seek-
8 ing and use, despite harmful consequences. It is con-
9 sidered a brain disease because drugs change the
10 brain’s structure and manner in which it functions.
11 These brain changes can be long lasting, and can
12 lead to the harmful behaviors seen in people who
13 abuse drugs. The disease of addiction affects both
14 brain and behavior, and scientists have identified
15 many of the biological and environmental factors
16 that contribute to the development and progression
17 of the disease.

18 (2) The pejorative term “abuse” used in con-
19 nection with diseases of addiction has the adverse ef-
20 fect of increasing social stigma and personal shame,
21 both of which are so often barriers to an individual’s
22 decision to seek treatment.
